Information

Technical Information about Quick Change Disc QRC 910

Technical Details:

Grain:	Ceramic aluminium oxide
Coating:	Close
Bonding:	Resin over resin
Backing:	Y-Polyester
Grit sizes:	36-80
Disc diameter:	38, 50, 76 mm
Others:	Quick Change Disc with Roll connect system, to be used with the appropriate backing pad QRC 555

Information about applications:

Material:	stainless steel, high alloy steel
Application:	rough grinding (for example removing of small weldings or weld spatters)
Machine:	die grinder, flexible shaft grinder, right angle die grinder

Market segments:

Mould construction, model construction, automotive, engine building, machine construction, tool manufacturing, aerospace

Product properties:

Extremely high removal rate on stainless steel due to micro-crystalline and self-sharpening ceramic grit. Continuously aggressive abrasive properties, multiband allows cool grinding on stainless steel
